

## CAD/CAM , S/W

Offers solution by various software.

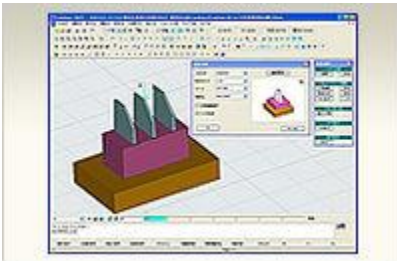

Provides workshop solutions with bundle of various EDM dedicated software.

### AD series

CAD/CAM System AD series

Support from mold design to machining.

It has functions for Wire-cut EDM, Electrode design, NC-EDM and Milling.

## ESPERADVANCE PRO

Creating programs for die-sinking EDM ESPERADVANCE PRO

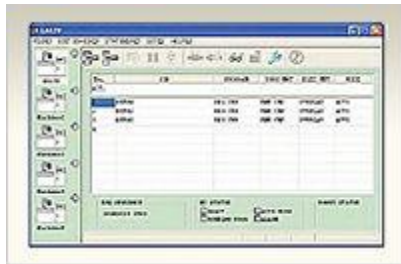

Allows you to create machining program on your PC.

## E.S.P.E.R SCHEDULE

Continuous operation control of die-sinking EDM E.S.P.E.R SCHEDULE

Allows you to schedule operation of five EDMs at the same time.

## RemoteMagic II

EDM Network System RemoteMagic II

EDM Network System allows you to continuously monitor machine status.

This reduces machine down time and increases productivity.
